

PRESS RELEASE

Issued: 5 December 2011 (For Immediate Release)

ProStance Used by Top 3 at 2011 Nedbank Golf Challenge

ProStance Limited, the Scottish based manufacturer and distributor of the ProStance® balance aid, announced today that the ProStance® balance aid was used by winner, runner-up, and (tied) third-place finisher at the 2011 Nedbank Golf Challenge played at the Gary Player Country Club, Sun City, South Africa between 1st and 4th December 2011. The winner's impressive 15 under par total secured victory and allowed him to successfully retain a trophy he also won in 2010.

Stewart Craig, Managing Director of ProStance Limited said "This has been another great week for ProStance. To finish with 3 players on top of the leader-board in a prestigious tournament is incredible and further evidence of the level of consistency and accuracy that those players who use ProStance have achieved over the course of the season."

About ProStance

ProStance is an inflatable balance aid that allows golfers to develop an understanding of weight distribution and balance throughout the golf swing. It provides instant feedback during every golf swing and helps golfers to improve balance, which in turn promotes consistency and accuracy in every aspect of the golf game.

ProStance is used by more than 200 tour professionals and by thousands of club and recreational golfers throughout the world.
